

SYSTEM OF MANY DEPARTMENTS.

A City Charter from Which the Indianapolis Committee is Proposing Suggestions.

It is now a fact that the charter which is being prepared for this city will be based on the federal plan, with three departments—the legislative, judicial and executive. Every plan has been discussed and carefully examined, and this decision is the result of care and extreme precaution on the part of the committee. According to this system the Council will have only the legislative power, while the executive authority will be vested in the Mayor. The judicial department will be the judge of the police court. The committee has been considering the charters of Brooklyn, Philadelphia and Chicago, with a view to deriving suggestions that might be applicable to this city. The plan that is to be adopted here is wholly unlike that now existing in Brooklyn, where the management of municipal affairs is controlled by fifteen departments similar to the federal departments. They are as follows: Finance, auditing, treasury, collection, law, assessment, police and excise, health, fire, building, city works, parks, and public instruction. The chiefs of these departments are all appointed by the Mayor of the city.

The Brooklyn charter is a model of exactness, and provides for a controller of its departmental finance, who has under his direction the management of the city's accounts and finances, subject to the ordinances of Council. He is required to render to the Council, as often as is required, a full and detailed statement of all the receipts and disbursements of the city, and to specify the amount expended and unexpended on each department made, together with a general statement of the liabilities and resources of the city.

The head of the department of law is required to examine into all bills presented against the city for payment. No claim, including those for street improvements, is paid unless he has certified that the services have been rendered, that the materials were furnished, and that the charges are reasonable according to contract.

The head of the treasury department receives and deposits all the moneys belonging to the city.

The collector of taxes and assessments, at the head of the department of collections, collects and deposits all moneys that may be due under any warrant delivered to him for the collection of taxes and assessments, all of which he pays immediately to the city treasurer. He is also required to render an itemized account of the same to the controller.

The department of arrears has the management and control of all matters relating to advertising and selling property for unpaid taxes, assessments and the redemption of property sold. He is required to publish certain intervals all delinquents on the city tax-list.

The head of the department of law is the city attorney. He has exclusive management of all litigation in which the city is involved, and is the general overseer of all contracts and ordinances.

The department of assessment consists of a board of ten assessors and one president. The board makes out all assessment lists and rolls for local improvements and taxes. The head of the department of public works is the chief commissioner, who has sole and exclusive control over the department.

In addition there are two commissioners of excise who assist him. The chief commissioner appoints all members of the police force, clerks and employees, and fills all vacancies at will.

The commissioner of health is the head of his department. He acts in a legislative capacity in regard to all matters pertaining to public health, the removal of nuisances, the maintenance and operation of an ambulance service, the regulation of births and deaths, and makes all the rules and regulations of his department.

The head of the fire department is known as the fire commissioner. Like the police commissioner, he has exclusive control of his department, makes all appointments and fills all vacancies.

The commissioner of buildings is at the head of the department of buildings, has exclusive control of all matters relating to the regulation and supervision of the construction, removal and alteration of buildings put up inside the city limits. He is assisted by a superintendent of buildings.

The commissioner of the department of city works has charge of the removal of city works from the department and of the following works and property: First, constructing of all sewers, streets, bridges, sidewalks, curbing and lighting all streets, flagging sidewalks and laying cross-walks; third, of constructing and repairing public roads, fourth, caring for all public buildings and offices; fifth, paving and cleaning all streets; sixth, of preparing maps and plans and specifications for all public improvements.

Eight commissioners preside over the department of parks, who have exclusive control and management of the city parks. The department of public instruction is managed by a board of education, composed of forty-five members, who have control of the city schools.

A system modeled after the one used in Brooklyn could not be maintained here on account of its expense. An effort will be made to follow it as closely as possible.

CULLINGS FROM THE COURTS.

Partial Report to Judge Cox of the County Grand Jury.

The county grand jury made a partial report to Judge Cox yesterday, when the following indictments were returned: Robert Larmore, Gerrie Mandler, Burk Black, Henry Bell, William Buckles, Oscar Franklin, William Wiese, John Owens, Peter James Swisher, grand larceny; Carrie Hall, receiving stolen goods; Roderick Keller, forgery; Edward Mitchell, assault and battery, with intent to kill. The prisoners were all arraigned as soon as they could be brought into court. Carrie Hall, charged with concealing a pair of bracelets belonging to Mary J. Street, and said to have been stolen by John Bell, Roderick Keller, charged with forging a check on William F. Piel & Co. for thirty-four bushels of grain, and Edward Mitchell, charged with attempting to murder William B. Dunnington, all pleaded not guilty. Henry Bell, for petit larceny, was sent to the work-house for thirty days; Robert Larmore, on a similar charge, was sent to jail for two days. John Owens, for grand larceny, was fined \$25 and sent to prison for one year. William Dainty was sent to the work-house for ninety days for assault, and Kate Robins was given sixty days at the same place for stealing \$110 from William Townsend. She pleaded guilty.

Wanted to Go to Another Church.

Mrs. John Parker, colored, was fined \$5 and costs by Justice of the Peace Feibleman yesterday for cruelty to her step-daughter, twelve years old. The child wants to go to a different church from her father's, and on two occasions, was choked and beaten for persisting in that purpose.

Will Complete Its Work.

The federal grand jury will meet tomorrow to complete its work begun and partially finished last month. There remain some important cases to pass upon, among the number being several violations of the election law.

to have been caused by falling from a street-car. Edward J. Conway also qualified as administrator of the estate of James South.

ITEMS FROM THE POLICE.

Two Boys Arrested on a Charge of Attempting to Wreck a Train.

Albert Eden, ten years of age, living on Hillside avenue, and Edward Case, fourteen, were arrested, by patrolman Barlow yesterday afternoon, and slated at the station-house on a charge of attempting to wreck a train. In company with two other boys they are accused of placing a cross-tie on the belt road, north of the Panhandle crossing. An engine and cars, rounding the curve, struck the obstruction, between 12 and 1 o'clock yesterday, and was nearly derailed. The tie turned endwise when struck, but fortunately the engine was brought to a standstill. The cross-tie was broken, but no further injury done. The two boys arrested assert that they were only present when the obstruction was put on the track, and had no hand in it. They gave the names of two older boys, who they said had revolvers with them, and who did the work.

Young People Arrested for Stealing.

Otto and Albert Kafadler, brothers, and both in their teens, were arrested yesterday in the company of Stephen Sullivan, also a boy, by detective Grady, of the Big Four system, on a charge of breaking open freight cars in the yards and stealing a large quantity of goods. Their stealings in the aggregate would amount to grand larceny, but having been taken in small amounts, the charge was made petit larceny. At the request of Sullivan's father the charge was made incorrigibility against him, preparatory to sending him to the Reformatory. The stolen property includes one bucket fine-cut tobacco, two barrels of apples, a quantity of line velvet, dry goods, wheat, corn and coal.

Fruit-Seller Swindled.

An Italian woman, a fruit-seller on East Washington street, was defrauded last night of about \$100, by a customer passing in a bank note, which he had in his pocket. She received \$100 in change and disappeared with his purchase before the character of the bill was discovered. The bill had the figure ten in blue ink, and the word "one hundred" had not been passed the average merchant without suspicion.

Notes from the Station-House.

A lady living at No. 26 St. Clair street was robbed of her purse, containing \$10.40, yesterday afternoon, at 4:30 o'clock, as she was standing on the corner of Illinois and Washington streets waiting for a car. She reported the loss to patrolman Wilson, and asserted that a sneak-thief had entered the work of a pick-pocket, but when or where accomplished she could not tell; hence there was no clue to the thief.

Mrs. Manor, living at the corner of Elizabeth and Blake streets, where she runs a grocery store, reported to the police last night that a sneak-thief had entered her house while her family were at supper and had gotten away with some jewelry.

Albert Lintner, a boy of seventeen years, arrested also patrolman Thompson, at Anderson last night for working the change racket on the Union creamery at the corner of Massachusetts avenue and Delaware street. A revolver was found on his person, and the charge of carrying concealed weapons was added to the misdemeanors slated against him.

Articles of Incorporation.

The Dodge Electric-Light and Power Company, of Mishawaka, St. Joseph county, was incorporated yesterday, with a capital stock of \$25,000. The Newton Building and Loan Association, of Newton, Fountain county, was also incorporated, with a capital stock of \$200,000. The articles of the Chicago Air-Line Railroad Company were filed, the capital stock of the company being \$200,000. The road is to be eighteen miles long, and to run from a point on the Ohio line near Union City to Portland, Jay county. The directors of the company are: John H. Elson, president; J. W.
